CampusKit

GOOD TO GO.

Proposed product backlog

PLANNING DRAFT - NOT A SNAPSHOT OF AN ACTUAL BOARD

Import these stories into your group's Trello/Jira board, assign owners and dates, review the supplied implementation, and track real progress. Export the current real board for the required submission. The preparation states below describe this package, not verified team participation.

ID / priority	Story and acceptance criteria	Preparation state
CK-01 / High	Student registration and login Student can register/login; password is hashed; invalid login is rejected.	Implemented; team review needed Owner: [Assign] Due: [Set]
